

Employment Status of Initial Program Graduates

The tables below reflect employment data from the 2023 NSPARC Impact Report Card. The National Strategic Planning and Analysis Research Center (NSPARC) at Mississippi State University compiles annual Impact Report Cards for Teacher Education and Educational Leadership Programs. Fourteen public and private higher education institutions in Mississippi submit data to establish external benchmarks for statewide educator preparation programs. These data are used in conjunction with de-identified data already in the state data clearinghouse to produce reports to assist with CAEP's annual reporting measures.

Due to a two-year delay in reporting, the most recent employment data available is for the 2021-2022 academic year. The employment data in the table below shows employment status of traditional and alternate route graduates across three cohorts (2018-2019, 2019-2020, and 2020-2021). The 2018-2019 cohort is followed for three years post the graduation. The 2019-2020 cohort is followed for two years post the graduation. The 2020-2021 cohort is followed one year post the graduation.

The data shows that at least 54 % of the 2020-2021 program completers were employed as MS Public School teachers in 2021-2022. Only 16 % and less of the 2020-2021 program completers were employed in non-educational job setting in 2021-2022.

Item 7. Ability of Completers to Be Hired in Education Positions for Which They Have Prepared -- Mississippi Valley State University
