

**MISSISSIPPI VALLEY STATE UNIVERSITY**  
**STUDENT LEARNING OUTCOMES ANNUAL REPORT**  
**2017-2018**

**OVERVIEW/METHODOLOGY <sup>1</sup>**

To demonstrate effectiveness in educational programs, every academic program at MVSU, including the General Education program, goes through an annual assessment process. Each program identifies student learning outcomes, assesses the extent to which it achieves those outcomes, and uses the results of the assessment to make improvements. Additionally, special initiatives are undertaken to measure competencies in General Education.

The MVSU Mission Statement serves as the guiding document for developing broad categories of student learning. The Mission Statement sets the stage for student learning in that it articulates the University's intent to prepare students who are **1) critical thinkers, 2) exceptional communicators, 3) service-oriented, engaged and productive citizens 4) capable researchers and 5) accomplished in their disciplines**. Academic assessment reporting begins with an alignment to these broader goals.

**Program Assessment**

In this report, outcomes are grouped by the five categories and then summarized by competency. For each student learning outcome, at least one assessment marker is given, which includes a measure of performance. The total benchmarks met are divided by the total markers to arrive at a percentage of student learning outcomes met.

In 2017-2018, a majority of student learning outcomes were met in each of the broad learning categories aligned with the MVSU mission statement. More specifically, seventy-seven percent (77%) of student learning outcomes related to critical thinking were met or exceeded. Sixty-one percent (61%) of student learning

<sup>1</sup> This report is adapted from McNeese State University's compliance report for SACS standard 3.3.1.1. [http://www.mcneese.edu/sacs/comprehensive\\_standard\\_3\\_3\\_1](http://www.mcneese.edu/sacs/comprehensive_standard_3_3_1). McNeese has 3 student learning outcomes that are pursued university-wide as part of a master plan. MVSU uses its mission statement to identify its common student learning goals.

outcomes related to exceptional communication competencies were met or exceeded. Eighty-seven percent (87%) of student learning outcomes related to students' abilities to be service-oriented, engaged and productive citizens were met or exceeded. Sixty-seven (67%) of student learning outcomes related to student research, as well as seventy-two percent (72%) of outcomes related to subject mastery were met or exceeded. Summary statistics for each student learning outcome and related competencies are provided in Table 1 below. In addition, programs reported a total of 36 improvements, including 18 improvements in means of assessment, 15 improvements in teaching interventions, and 3 gains in student learning. These improvements are summarized in Table 2 and detailed by degree program in Table 3.

Appendix 1 shows the 3-year comparison (2015 – 2018) of reported student learning goals and improvements observed and Appendix 11 shows the 5-year (2013 – 2018) comparison.

<b>PROGRAM</b>	<b>IMPROVEMENTS</b>	<b>TYPE</b>
Biology, BS	Utilized a new study guide for the exit exam	Intervention
Biology, BS	Emphasized the structure of report writing in the Senior Project Class	Intervention
Biology, BS	A concentrated effort to improve students' ability to calculate and make molar and percent solutions	Intervention
Bioinformatics	Selected a new artifact for assessment	Assessment
Criminal Justice, BS	Revised items on the Senior Exit Exam	Assessment
Criminal Justice, BS	Revised Senior Exit Survey in line with best practices used by other universities	Assessment
Criminal Justice, BS	Revised Internship Rubric in line with best practices used at other universities	Assessment
Criminal Justice, BS	Added a Pre-Post Test as a second means of assessment for Research Methods	Assessment
Communications, BS	Restructured First Amendment prompts on Exit Examinations	Assessment
Communications, BS	Changed means of assessment to a more feasible and measurable mode	Assessment
Communications, BS	Modified questions on Exit Exam to reflect changes in the means of assessment	Assessment

Communications, BS	Improvements were seen on Portfolios assessments, especially in the areas of creating projects and applying concepts to real-life situations	Learning
Elem Ed, BS	To improve time management skills, Teacher interns were assigned specific due dates to plan lessons and activities in a timely manner. Time management issues were discussed in weekly seminars.	Intervention
Elem Ed, BS	Improvement plans were initiated for Interns who scored (0) Unacceptable or a (1) Emerging on the assessment indicators	Interventions
Elem Ed, MS	Revised Scoring Rubrics for measuring Action Research Study	Assessment
Elem Ed, MS	Introduced new Scoring Rubrics for technology (Internet/Web) PowerPoint and Lessons in Technology assessment.	Assessment
Elem Ed, MS	Instituted a new Scoring Rubric for Comprehensive Exams	Assessment
Elem Ed, MS	Taught explicit steps in preparing a quality Literature Review in Action Research Project, and in creating an Action Research Project.	Intervention
Elem Ed, MS	Gave students explicit instructions on using technology in the classroom.	Intervention
Elem Ed, MS	Targeted instructions to assist candidates in achieving better scores on the Comprehensive Exam	Intervention
Elem Ed, MS	Moderate improvement was seen in students' knowledge of creating Literature Review in an Action Research Project compared to 2016-2017 Assessment period.	Learning
English	A new textbook was adopted for EN 308	Intervention
English	New rubrics adopted for assessing oral presentations; creative writing and research	Assessment
History, BS	Adopted a new Scoring Rubric from UMBC Center for History Education.	Assessment

History, BS	Faculty introduced in-class discussion assignments analyzing short scholarly journal article and applying the rubric for self-assessment	Intervention
History, BS	Emphasis on in-class discussions on analyzing reference citations, journal summaries, and applying rubric for self-assessment.	Intervention
Teaching, MA	Selected rubrics for measuring children's language learning process.	Assessment
Teaching, MA	Selected rubrics for measuring the ability to embrace children's literature as an instrument of literacy instruction.	Assessment
Teaching, MA	Selected rubrics for measuring skills of teaching reading in the elementary school.	Assessment
Math, BS	Based on the MFT, students in BS Mathematics showed improvement in upper-level algebra, with a mean percentage increase from 24 to 28.	Learning
RPP&P, MS	Created a database of possible questions used in preparatory sessions for the comprehensive exam.	Intervention
RPP&P, MS	Instituted refresher course in data analysis using SPSS.	Intervention
Secondary Ed. BS	To improve time management skills, Teacher interns were assigned specific due dates to plan lessons and activities in a timely manner. Time management issues were discussed in weekly seminars.	Intervention
Secondary Ed. BS	Improvement plans were initiated for Interns who scored (0) Unacceptable or a (1) Emerging on the assessment indicators	Intervention
Speech, BA	New rubrics developed for three content areas.	Assessment
Social Work, BS	A new undergraduate field evaluation form was instituted at the beginning of the assessment year. The new 4-point rating	Assessment

	scale, which replaced the 5-point scale previously used, gave a more accurate appraisal of students' performance.

**General Education Assessment**

The University also measures student competencies fostered by the courses in its general core curriculum. The same categories are used as in Program Assessment so that all academic endeavors can be aligned with the University Mission. In 2017-18, competencies in General Education were measured through the University's Quality Enhancement Plan focusing on writing and signature assignments from speech and computer science classes. The results from those assessments are summarized in Tables 4-8.
