DEPARTMENT OF SOCIAL WORK/BSW PROGRAM MISSION

The mission of the Department of Social Work at Mississippi Valley State University is to prepare graduates to practice with individuals in need and populations at risk in rural areas. The Bachelor of Social Work (BSW) Program prepares students to apply the knowledge and skills of generalist social work practice with individuals, families, groups, organizations and communities. Through the curriculum, the program instills in students social work knowledge, values, and skills in a manner which enables students to work with diverse populations in a wide range of settings. Concurrently, special emphasis is placed on social work practice with impoverished minorities living in rural regions, such as the Mississippi Delta in which the University is located and committed to serve, as well as rural areas globally.

BSW PROGRAM GOALS

1. Educate students for entry level social work positions for generalist practice with individuals, families, groups, organizations and communities.
2. Provide students with the necessary knowledge and skills for working with diverse populations, including oppressed, minority and rural populations.
3. Instill in students a professional social work identity which incorporates the values and ethics of the profession.

COURSE REQUIREMENTS

Required Textbooks:

Zastrow, C. & Ashman, K. K. (2016). *Understanding human behavior and the social environment (10th ed.)*. Chicago: Nelson-Hall Publishing.

Class Attendance Policy:

Class attendance is required. Students are expected to attend all class sessions. If a class is missed, the student is still responsible for any announcements, handouts, or material presented in class.

Policy and Procedure on Cheating and Plagiarism:

Philosophy

Honesty and integrity are essential values of Mississippi Valley State University's mission to pursue truth and knowledge. All persons – administrators, faculty, staff, and students – share the responsibility for achieving high standards of excellence. Academic dishonesty of any kind negates this mission and is antithetical to the development of morally and ethically sound human beings. Therefore, Mississippi Valley State University will not tolerate cheating or plagiarism in any form. Cheating and plagiarism compromise the process of fair and equitable evaluation conferred by the University. Students who engage in such activities deny themselves the opportunity to benefit from accurate assessment and feedback and prevent full academic and personal development.

Responsibility

Although the faculty of Mississippi Valley State University is responsible for establishing the standards for moral and academic excellence in teaching and learning, these standards can be reached only with the cooperation and support of students. Each student is expected, therefore, to accept responsibility for maintaining honesty and integrity in all endeavors inside and outside the classroom, studio, or laboratory. Faculty encourages ethical behaviors by: establishing an atmosphere of respect in the classroom; stating clearly on the syllabus their standards and expectations for academic performance, structuring learning situations that encourage honesty and deter cheating and plagiarism; and for presenting and enforcing the University's policy on academic dishonesty.

Definitions

Cheating is the actual or attempted practice of fraudulent or deceptive acts for the purpose of improving one's grade or obtaining course credit. Such behavior also includes assisting another student in such practice. Although cheating is often associated with examinations, it is the intent

of this definition that the term “cheating” not be limited to examination situations only, but also that it includes any and all actions by a student that are intended to gain an unearned academic advantage by fraudulent or deceptive means.

Plagiarism is a specific type of cheating which consist of the misuse of the published and/or unpublished works of others by misrepresenting the intellectual property of others as one’s own ideas or works.

Academic Sanctions for Cheating or Plagiarism

When a faculty member responsible for a course has reason to believe that an action of a student falls within one or both of the aforementioned definitions, the faculty member should initiate a conference with the student to present the student with the charge and the evidence. If the student admits to the wrong doing, the instructor shall impose an academic sanction. The instructor has the prerogative of lowering the grade, assigning a grade of “0” or “F” for the work submitted, assigning an “F” for the entire course, or recommending another penalty, including dismissal from the University. In the advent that the student does not admit wrong doing or that no mutually agreeable settlement is reached as a result of the faculty-student conference, the faculty member will consult the department chair.

Make-up Examination Policy:

It is the responsibility of the student to request to make up an examination within one week following the missed examination. The decision rests with the class instructor as to whether a student will be allowed to make up the test. The decision will be based on whether the instructor considers the reason for missing the examination to be justifiable.

Teaching/Learning Strategies:

Various teaching methods will be used to meet the course objectives and stimulate discussions in the class. Students are expected to participate in discussion and share their thoughts regarding issues being discussed. This class will be formatted in order to accommodate the use of videos, assigned readings and presentations as well as lecturing. guest speakers who are experienced in mental health assessment will present information to help students to understand the progression of mental illness and the cutting edge intervention to help those diagnosed with mental illness to live and maintain a healthier emotional being.
