Mrs. Carla Williams
Purchasing Office
Mississippi Valley State University
14000 Hwy 82 W
Itta Bena, MS 38941-1400

Dear Mrs. Williams:

In attempting to acquire software that allows the library to thrive in a digital-first world while providing amazing service to our patrons, the James H. White Library has met the following criteria for sole source purchases and included necessary attachments.

1. The product of services being purchased must perform a function in which no other product or service exists. Springshare is the only vendor that can provide a digital platform that can provide the library with the ability to help library users find resources and information digitally, ensure users' questions are answered 24/7, maximize the use of library services, promote library services, events, and spaces, analyze library statistics for better decision making.

2. The purchaser must be able to show specific business objectives that can be met only through the unique product or services. We currently use the Springshare LibApps software platform to effectively communicate with our users virtually, to curate knowledge and share information, organize class and subject specific resources, to increase the usage of library's resources and content by showcasing them in LibGuides and, to ensure that users get the answers they need, whenever and wherever by embedding LibChat and "Ask Us" widgets into the library's webpage.

3. The product of services must be available only from the manufacturer and NOT through resellers who could submit competitive pricing for the product or services. Springshare's LibApps software platform, which consists of LibGuides, LibAnswers, LibCal, LibWizard, LibInsight, LibStaffer, and LibCRM, is unique to Springshare with no other company offering the product or services available from Springshare (please see accompanying sole source letter).

Sincerely,

Mantra Henderson, MLIS
Director, JH White Library

QUALIFYING INFORMATION (Part B)

Were any objections to the sole source determination regarding this commodity received by the Agency?

YES NO

If "yes", did the Agency appeal to PPRB? YES NO

What was the outcome of the appeal to PPRB? _____

**If Agency received no objections to sole source determination, complete entire form and submit with P-1 Request.
If PPRB approval received, please complete the remainder of this form and submit with P-1 Request. If PPRB did not approve, the Agency is required to submit the procurement of the commodity to an advertised competitive bid or selection process. Once competitive bid or selection process is complete, attach this form (SSD) as an internal attachment to P-1 request and do not complete (Part C).*

PPRB APPROVAL RECEIVED (Part C)

What efforts were made by the Agency to determine that the proposed provider is the only entity that can provide the commodity needed?

The library searched for other vendors who could provide the same services offered by Springshare but could only locate vendors who could provide 2 or 3 of the services but not all of them.

What efforts were made to ensure the best possible price for the commodity was obtained?

While searching for comparable vendors to Springshare, prices comparison wise, the library would have need to procure services from 3 other vendors to get the same services that we currently receive from Springshare. This is not cost

effective

Why is the commodity the only one that can meet the needs to the Agency?

It is the only platform that allows libraries to provide more effective and efficient assistance to students (both online and on campus) in successfully completing their academic coursework. The software allows us to help turn our students and

faculty into successful - and frequent - library users.

Why is the amount expended for the commodity reasonable?

The Springshare Platform provides the best bang for your buck for libraries looking to thrive in a digital-first world and provide amazing service to patrons.

The following items must be attached to your P-1:

1. Letter from Agency head, or designee, outlining the results of the procedures that have been detailed above.
2. Copy of SSD form and any accompanying documents.
3. Copy(s) of OSS, if applicable.
4. Original quote, signed by Vendor. Electronic quotes do not require the signature of the Vendor.

To Whom It May Concern,

Springshare, an Internet software company focusing on the library market, is the creator of LibApps software platform, consisting of LibGuides (along with E-Reserves module for LibGuides), LibAnswers, LibCal, LibWizard, LibInsight, LibCRM and LibStaffer knowledge sharing and web 2.0 publishing tools. The LibApps platform functionality is unique in this marketplace; no other company offers a product or a service that matches it. No knowledge of HTML or web programming is required to create content in LibApps, and Springshare's widgets enable distribution of library-created content on any website. Springshare's unique SEO approach ensures that the library content is indexed in all major search engines and is highly placed in search results.

In addition, the LibGuides, LibAnswers, and LibCal community sites (<https://community.libguides.com>, <https://community.libanswers.com>, <https://community.libcal.com>) aggregate all content from our member libraries enabling librarians to browse and share content among different institutions. The LibApps web publishing tools (LibGuides, E-Reserves, LibAnswers, LibCal, LibAnalytics, and LibStaffer) fully integrate and share content and resources between each other. These tools are only available to our subscribing libraries.

For these reasons, we believe Springshare to be the only company that can provide libraries with the online knowledge sharing and content publishing solutions uniquely tailored to their needs.

Springshare is the sole source provider of the LibApps platform consisting of LibGuides, E-Reserves, LibAnswers, LibCal, LibInsight, LibWizard, LibCRM, and LibStaffer Platforms.

Best regards,

Slaven Zivkovic
